

Enhancing Lead Generation through Automated Social Media Scraping and Engagement

AT A GLANCE

Automated social media scraping and AI-driven engagement boost lead generation for digital marketing agency

Key metrics

Dramatic improvements in query management efficiency:

60%
Reduction in Search Time

40%
Increase in Lead Conversion

25%
Faster Lead Response

BACKGROUND

A digital marketing agency approached us to automate their lead generation process through social media platforms. Before implementing the AI automation solution, the client struggled with:

- Time-consuming manual lead searches on social media
- Inconsistent and low-quality lead results
- Delayed engagement with potential leads

SOLUTION

The automation solution utilized the tools the client was already using, including:

Apify

GPT

HubSpot

Hubspot

Sheets

Slack

BENEFITS

1

Benefits One

Automates the extraction of potential leads from social media, and significantly reduces manual effort

2

Benefits Two

Uses AI to evaluate and enrich data, ensuring only high-potential leads are targeted

3

Benefits Three

Generates and sends personalized messages promptly, increasing the likelihood of positive responses

4

Benefits Four

Easily scales to handle increased lead generation demands as the business grows

Automation Workflow

APPROACH

- **Web scraping:** Use Apify to extract potential leads from social media platforms based on predefined criteria.
- **Data storage:** Store extracted leads temporarily in Google Sheets for initial processing and filtering.
- **AI enrichment:** Analyze and enrich the scraped data using GPT-4 to evaluate lead quality and relevance.
- **Filter leads:** Filter leads based on AI-generated quality scores, targeting high-potential prospects.
- **Personalized messages:** Generate personalized engagement messages for qualified leads using GPT.
- **CRM integration:** Automatically add qualified leads to HubSpot CRM for tracking and follow-up.
- **Notifications:** Send real-time notifications to the team via Slack about new lead assignments and engagement status.
